

Invitation to attend on-line interactive webinar

Sunday, August 9th, 2020

8:00 AM – 10:00 AM and 11:00 AM to 1:00 PM

This webinar is divided in to two sessions for participants' comfort. Both sessions need to be attended to get credit for this webinar.

CHANGING PARADIGM: Movement System Impairment Syndromes of the Shoulder

4 hours of Continuing education contact hours

In-depth clinical seminars will provide virtual learning course on this topic via webinar.

Join us for our Virtual Learning course as Yakub I Patel, DPT will present shoulder disorders in light of shoulder Movement System Impairment.

The traditional patho-anatomy model is important but has weaker relationship with function. He will discuss ways to drill down from broad overarching categories to a level of specificity that can more effectively direct treatment and how doing so from the movement system framework could result in a logical and consistent flow from assessment to treatment. He will discuss ways to evaluate movement-related impairments for guiding treatment interventions

3 WAYS TO SEND THIS REGISTRATION:
